CABIN AIR FILTER

CATALOGUE

Global System S.r.l. è un'Azienda che nasce nel 2000 e vanta una esperienza pluridecennale nello sviluppo e produzione di filtri abitacolo per il mondo automotive e veicolo industriale. I costanti investimenti in nuove tecnologie di produzione e logistiche e l'aumento degli spazi offerti dalla nuova sede di Carpi (MO), pongono l'Azienda nelle migliori condizioni per affrontare le sfide del mercato nei prossimi anni. Il forte orientamento alle esigenze dell'After Market Indipendente ed una struttura snella, competente e flessibile, rendono Global System S.r.l. un partner di eccellenza capace di rispondere alle richieste delle migliori organizzazioni di distribuzione ricambi in Europa. Rispetto del cliente ed una offerta commerciale adeguata alle esigenze del mercato hanno permesso in questi anni di consolidare la nostra presenza sia sul mercato domestico che in tutti i principali mercati Europei.

Global System S.r.l. è un'azienda certificata ISO9001:2015 dall'organismo di certificazione accreditato TUV SUD.

Global System S.r.l. is a company which was born in 2000 and boasts a decades-long experience in the development and production of cabin filters for automotive and industrial vehicles. The constant investments in new production and logistic technologies, as well as the increase in space offered by the new seat in Carpi (MO), put the company in the best conditions to face the challenges coming from the market in the next years. The strong orientation to the needs of the Independent After Market and the nimble, competent and flexible structure make Global System S.r.l. an excellent partner, able to meet the requirements of the best spare part distributors in Europe. The respect for the customer and a commercial offer meeting the market needs have allowed us in these years to consolidate our presence both on the domestic market and on all main European markets. Global System S.r.l. is an ISO9001:2015 certified company by TUV SUD accredited certification body.

La empresa Global System S.r.L. fue fundada en el año 2000 y cuenta con una experiencia de varias decadas en el desarrollo y la producción de filtros de cabinas para coches y vehículos industriales. La constante inversión en nuevas tecnologías de producción y logísticas, así como el aumento de los espacios de la nueva sede de Carpi (MO), ponen a la empresa en las mejores condiciones para afrontar los desafíos del mercado en los próximos años. Su gran orientación hacia las necesidades del After Market independiente y la estructura ágil, competente y flexible con la que cuenta, hacen de Global System S.r.L. un socio de excelencia, capaz de responder a las demandas de las principales organizaciones de distribución de recambios en Europa. Gracias a nuestro gran respeto por el cliente y a una oferta comercial adaptada a las necesidades del mercado, en los últimos años hemos podido fortalecer nuestra presencia tanto en el mercado interno como en todos los principales mercados europeos. Global System s.r.l. es una empresa certificada ISO9001:2015 desde el organismo de certificación reconocido TUV SUD.

### ***BIO-functional Cabin Air Filter:*** Barrier against Bacteria, Fungi or Virus

I microbi sono piccole specie non visibili a occhio nudo e possono essere Batteri, Funghi o Virus. Essi hanno la capacità di vivere su ogni tipo di tessuto, se vi trovano nutrimento. Durante la fase di filtrazione, sulla superficie del filtro, ci possono essere pollini, piccoli insetti, mosche o altri inquinanti. Rimanendo sul filtro con un alto grado di umidità, possono diventare cibo per i microrganismi, in modo particolare per le muffe appartenenti alla famiglia dei funghi. Le muffe sono note per rilasciare tossine pericolose per l'ambiente. Per questa ragione, il lato attivo deve necessariamente essere il primo strato del sistema di filtrazione.

*Microbes are small species that are not visible with a naked eye and can be Bacteria, Fungi or Virus. They can live on materials if they find there any food. As during the filtration on the top of the filter there can be bloom powder, small insects, fly or other pollutants. Staying on the filter with high humidity this can become food for the microorganisms, especially fungi's family member mold. Mold is known to release dangerous toxins in the environment. For this reason the active side has to be the first layer of the filtration system.*

Los microbios son microorganismos que no se pueden ver a simple vista y pueden ser Bacterias, Hongos o Virus. Pueden vivir sobre los materiales si pueden encontrar alimento. En la superficie del filtro puede haber polvo de flores, pequeños insectos, moscas y otros contaminantes durante la filtración. Si permanecen en el filtro con mucha humedad se convierten en alimento de los microorganismos, especialmente el musgo, de la familia de los hongos. Como es sabido, el moho suelta toxinas peligrosas para el medio ambiente. Por esta razón el elemento activo se coloca en primera capa del sistema de filtrado.

## **BIO-functional Cabin Air Filter:**

1. Riduce la proliferazione dei **Batteri, Funghi e Virus**

*Reduces the growth of **Bacteria, Fungi and Virus***

*Reduce la proliferación de **Bacterias, Hongos y Virus***

2. Protegge dalle innumerevoli **particelle di polvere, pollini e gas nocivi** che sono pericolosi per la salute

*Protects by the uncountable **dust particles, pollens and harmful gases** which are dangerous for your health*

*Protege de numerosas **partículas, polen y gases tóxicos** que constituyen un peligro para su salud*

3. Aiuta a **prevenire le reazioni allergiche** assorbendo la maggior parte degli allergeni

*Helps to **prevent the allergic reactions** absorbing the most allergens*

*Ayuda a **evitar las reacciones alérgicas** absorbiendo la mayor parte de los alérgenos*

4. Aumenta **il comfort e la sicurezza di guida** all'interno del veicolo, filtrando e pulendo l'aria entrante

*Increases the **driving safety and comfort** inside your vehicle, filtering and cleaning the incoming air*

*Incrementa **la seguridad al volante y el confort** dentro del vehículo, filtrando y purificando el aire que entra*

# cabin AIR filter
